Spokane, Wash., Oct. 30,—Three men were arrested near Cedonia, Wash., last night, following the discovery of what was left of a woman's body in a smoldering log fire in a lonely place in the Huckleberry moun-

The subsequent developments promised an unusual murder mystery, though all motive for the alleged crime is lacking and nothing of the evidence against the men under ar-rest is obtainable as yet. The prisoners are James Logan and G. B. Hilton, farmers, and a man known as "Tennessee Jack." They are being brought into Colville by Sheriff W. H. Graham of Stevens county, who, with Coroner A. B. Cook and Prosecutor H. B. Kirkpatrick, was called to the scene of the crime.

Logan's arrest is said to have been made upon the statement of a man who declared he saw Logan standing near the burning pile that was consuming the woman's body.

The woman's name is not known. She was employed at the Hergshemier ranch. She and Logan, it is said, Logan's ranch to go to Blue creek on have left the wagon to open a gate and to have shot the woman as she was driving through, carrying her body to the spot where it was burned.

ALASKA WILL BE A LAND OF FLOWERS

Seattle, Wash., Oct. 30.—Alaska will be a land not only of ice fields and mountains of gold, but of fair green pastures and great wheat fields and pleasant gardens of fruits and flowers and vegetables, according to Prof. C. C. Georgeson, special agent of the de-

way to Sitka.
"The prospects today for successful Agriculture in Alaska are infinitely greater than they appeared to be eleven years ago when I bgan work there," he said.

"Alaska will some day become the home of prosperous and successful farmers, but the farmers will probably come from the Scandinavian peninsula and from Finland, because they have been brought up under similar climatic conditions and have been reared in many instances under conditions less favorable to agriculture than Alaska affords.
